

LEE-BED open call: One stop shop for lightweight embedded and printed electronics

LEE-BED is offering phase 1 techno/economic assessments, free of charge, for 10 hand picked stakeholders.

A Techno/Economic assessment consists of the following services:

- Full technological feasibility & assessment of your idea
- Economic feasibility of the technology solution compared to your cost targets
- Safety assessment highlighting the relevant regulations and safety issues surrounding your envisioned product
- Life-cycle-assessment for grading the environmental impact of the solution
- Patent Mapping in order to survey the IP landscape and freedom to operate surrounding the idea.
- Funding services in order to get access to our State-of-the-art pilot lines
